

**R22 Banking Program Agreement**  
**COMPLETE AND FAX TO 516-745-6186**

We have decided to participate in Sid Harvey's R22 Banking Program. I understand that this program allow us to return our used R22 refrigerant to Sid Harvey and have the pounds that exceed a purity of greater than 98% be credited to our refrigerant bank.

The program works as follows:

- You deposit R22 in the Sid Harvey bank.
- You purchase new virgin R22 from Sid Harvey at the current market price.
- At the beginning of each calendar quarter, a rebate will either be mailed to you or your Sid Harvey account will be credited with the difference between the price you paid for the new virgin R22 and bank price for R22 on the date you purchase the new R22. The rebate or credit will be based on either the number of pounds of R22 you purchased or the number of pounds you had banked with Sid Harvey, whichever is lower.
- You can "cash out" your bank at any time and receive a credit to your account based on the pounds deposited and the "cash" price on the date you deposited the pounds of used R22 with Sid Harvey.
- Any used R22 returned to Sid Harvey's falling below the 98% purity rate will need to be destroyed. You will be billed back at the going market rate and it will be deducted from your quarterly rebate check or credit.
