Replace the Best with the Best!

Millions of White-Rodgers mercury-cell mechanical thermostats have been installed over the last 50 years. The best mercury-free replacement is... White-Rodgers.

- New mercury-free mechanicals offer quick and easy replacement.
- Same size as our older models and feature updated styling.
- Same footprint saves time and aggravation, so wall marks are not a problem and no cover-up wall plate is necessary.
- Four new models replace most White-Rodgers and competitive mercury mechanical models.
- Packaging is bi-lingual (English/Spanish) and includes a complete model cross-reference.

Properly dispose of any product containing mercury. For recycling information on thermostats, go to www.nema.org/gove/ehs/trc/
