

LIGHTING INSTRUCTIONS

- Press button 1x to activate
- Press button again to turn OFF

DIMMING INSTRUCTIONS

While ON, press and hold button to activate dimming function.

- Light will flash quickly when it reaches 10% or 100% to indicate it has reached the lowest or highest light output
- Release button at any time to achieve desired brightness
- Light will continue to dim/brighten between 100% and 10% until button is released.

MEMORY POWER RECALL

If the light has been dimmed and powered OFF, the next activation will recall the last used power setting. To reprogram, simply follow the dimming instructions to achieve desired brightness.

LOCKOUT MODE

SLIM is equipped with lockout mode to prevent unintentional operation.

- From the OFF position, press and hold the button for 5 seconds.
- Light will flash twice quickly to indicate lockout mode has been activated.
- To exit lockout mode, simply press and hold the button again for 5 seconds.

Contents include:
