**Tongue and Groove Pliers**

These patented design pliers have permalock fasteners with a reinforcing edge. Pliers adjust smoothly between jaw positions without the distance in the handle growing wider. Lever action allows for maximum force transmission. The grips are also dipped in plastic for a more comfortable hold. Made in the USA.

**Adjustable Wrenches**

Channellock Adjustable Wrenches are rugged with chrome vanadium steel construction. They feature measurement scales that are laser engraved (in. on front, mm. on reverse) and handy for sizing nuts, pipe, and tube diameters. They also have an optimal head width and non-protruding jaws that allow accessibility for hard to reach applications. The precise 4-thread knurl improves adjustment accuracy.
