GET ONE SINGULAR MANIFOLD FREE!§**

## SINGULAR COMBI BOILER FEATURES

- ▶ High-efficiency condensing combi wall boiler - 95% AFUE rating
- ▶ Built-in boiler circulator pump
- ▶ Stainless steel primary & secondary heat exchangers for cost-effective, reliable performance
- ▶ All models are field convertible from NG to LP with included conversion kit
- ▶ Capable of outdoor reset with accessory temperature sensor (not included)
- ▶ Eco-friendly low NOx metal fiber burner
- ▶ Turndown ratio up to 10:1
- ▶ 2" PVC vent up to 60' (3" venting up to 150')
- ▶ Exhaust gas temperature sensor ensures safe operation
- ▶ 10-year heat exchanger, 5-year parts, and 1-year labor limited warranty

## PREFABRICATED LOW LOSS HEADER

The prefabricated low-loss header is specially designed for the circulator installed in the wall boiler and ensures proper flow-rate through the unit. By simplifying the piping, the manifold allows for quicker, easier, and trouble-free installation of a Singular boiler.
