

Medium Condensate

CB15 & CB20 Series

Beckett's family of medium condensate pumps are designed to meet or exceed your toughest job demands. This generation of pumps is engineered to be user friendly with features like a more reliable micro switch float mechanism and the ability to mount the pump from either side. Check out the larger replaceable Duck-Bill check valve design and convenient discharge with both barb and threads, a modern design that meets the highest quality standards the you have come to expect from Beckett.
