White-Rodgers Universal and Direct Replacement Non-Integrated Ignition Module

- Low Voltage: 24 VAC, 50/60 Hz
- Line Voltage: 120 VAC, 50/60 Hz
- -40°F to 175°F operating temperature
- Provides ignition, proof of ignition and precise timings
- LED diagnostic indicator
- For use in Natural and LP gas applications

SH ITEM# 50D50U-843\$109.99

Honeywell Home

Honeywell Home Universal Intermittent Pilot Control

Universal intermittent pilot ignition module replaces multiple field installed intermittent pilot modules supplied by Honeywell, Robertshaw, Johnson, and UTEC (HSC).

Specifications:

- Electrical Ratings: 24V, 60 Hz
- Trial for Ignition: 15 second or 90 second field selected
- Ignition Sequence: Continuous retry; after trial for ignition, pilot gas shuts off for 5 min. before the next retry takes place
- Max. Valve Load @ 24 VAC (Amps): 1A Pilot, 2A Main @ 165°F; 1A Main @ 175°F
- Vent damper connection with automatic vent damper plug
- EnviraCOM communications for additional diagnostics

SH ITEM# S8610U3009\$119.99

Honeywell Home

Honeywell Home Universal Hot Surface Ignition Integrated Furnace Control

- Universal single stage heating and cooling
- Main burner ignition using a 120V hot surface igniter
- Line Voltage: 120 VAC (97-132 VAC)
- Low Voltage: 24V (18-30 VAC)
- Monitoring of system pressure switch, high temperature limit and rollout functions

SH ITEM# S9200U1000\$147.50

Honeywell Home

Honeywell Home Glowfly™ Igniter Kit

- Includes 1 igniter and 6 brackets
- Replaces over 110 igniters

SH ITEM# Q3200U1004.....\$39.99

Honeywell Home

Honeywell Home Igniter Flame Rod Assembly

- Use with SV9500, SV900, field replacement for Q3450, Q3480
- 30" wire

SH ITEM# Q3400A1024.....\$69.99

Honeywell Home

Honeywell Home SmartValve™

Provides intermittent pilot gas ignition sequencing, pilot flame sensing and both pilot and main gas control functions in a single control. Allows easy field replacement of a wide range of SV and SmartValve™ system modules.

- Standard opening: 1/2" x 1/2" NPT
- 24 VAC
- Ignition trial to lockout: continuous retry
- Ignition trial time: 90 sec.
- Body pattern: straight-through
- Includes natural to LP gas conversion kit

SH ITEM# SV9501M2528 \$329.00

**White
Rodgers™**

White-Rodgers Standing Pilot Gas Valve

- Snap open: 1/2" x 3/4" NPT
- 24 VAC
- Body pattern: Straight-through
- Natural gas, includes LP conversion kit
- Includes reducer bushing kit

Time for an upgrade

The heating trade is changing. With heat pumps and hybrid systems, more and more technologies are being added to the classic gas heating system – so it's time for an upgrade in measuring tools: with Smart Manifolds and Smart Scales from Testo. Fully networked, guaranteed to be up to date, and perfectly adjusted to the modern heating world of today – and tomorrow.

THE PERFORMANCE UPGRADE

The Testo 570s

- Highest Precision
- Longest Battery Life

THE FLEXIBILITY UPGRADE

The Testo 557s

- Fully Networked
- Precise and Automatic

THE SIMPLICITY UPGRADE

The Testo 550s

- Large Graphic Display
- Uncomplicated & Compact

ULTIMATE PRODUCTIVITY. SUPERIOR PERFORMANCE.

AVAILABLE AT SID HARVEY'S

NTB7L

BreakFree® Power Tube Bender PATENT PENDING

Suitable for tubing sizing 1/4" to 7/8" OD, NAVAC NTB7L saves tons of your time and labor, and makes the job much easier. By pressing a single controller switch, you can bend the tube to any desired angle. When a bend is completed, the baffle will push the tube out automatically while the tool resets, helping you to remove the tube effortlessly.

FEATURES:

Battery-Driven Effortless Bending

- Powerful for large size tubing
- Push and hold for 90° bending
- Automatic tube release

Large Lithium Battery

- Over 100 bends per charge
- Quick charge in 30 minutes

Patented Tubing Size Selector

- 7 sizes in one selector
- Easy to switch to different tubing size settings

Other Features

- Quick connect mandrel & crossbar
- Battery power indicator

Easy Operation

- Ergonomic handle design
- Stop any time for customized angles

AVAILABLE AT SID HARVEY'S

NAVAC BreakFree® Power Tube Expander Kit

Get the job done quickly. Expand a tube in 12 seconds by pressing one button. The long-lasting rechargeable lithium battery allows up to 200 expansions on a single charge.

Kit includes: Quick Connect Expander Heads,
NBF2 Lithium Battery, NCF2 Battery Charger & Carry Case

- One-button operation
- Automatic pressure relief
- Quick connect heads
- Quick charge in 30 minutes
- Innovative head design minimizes 3/8" tube splitting
- Battery power indicator
- LED flash light

SERVICE+

10
YEAR
WARRANTY

**SAME
DAY
SERVICE
GUARANTEED**

UPS
GROUND

10 Year Warranty: All UEi combustion analyzers have a standard 1-year warranty. Each recertification extends the warranty for 1 more year for up to **10 years** from the date of purchase.

Contractors who book recertification of a C160 series analyzer at www.ueitest.com/service within 12 months from either date of purchase or the date of the last recertification will receive reduced service pricing¹ that lowers the cost of ownership and 2 additional benefits:

Same Day Service: All qualifying analyzers received for recertification through UEi Service+ are returned on the same business day².

Free Shipping: UEi Service+ offers free shipping both to and from our service center. When customers book their recertification, they receive a prepaid UPS Ground shipping label.

¹Pricing subject to change without notice.

²We'll need 48 hours for analyzers with NO (Nitric Oxide) sensor installed.

PHASE DOWN

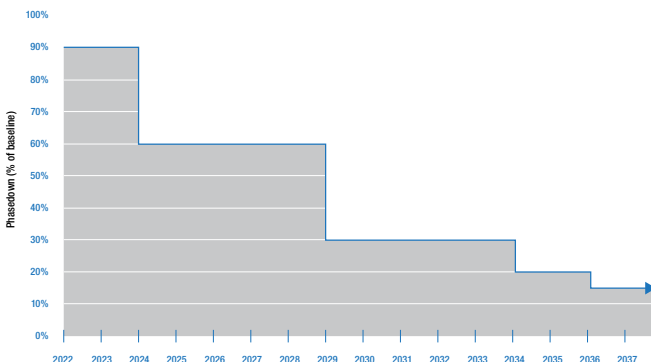

Final Rule - Phasedown of Hydrofluorocarbons: Establishing the Allowance Allocation and Trading Program under the AIM Act

The AIM Act, which was included in the Consolidated Appropriations Act, 2021, directs EPA to phase down production and consumption of HFCs in the United States by 85 percent over the next 15 years. A global HFC phasedown is expected to avoid up to 0.5° Celsius of global warming by 2100.

This final rule is the first regulation under the AIM Act to address HFCs, which are potent greenhouse gases commonly used in refrigerators, air conditioners, and other applications. This final rule sets the HFC production and consumption baseline levels from which reductions will be made, establishes an initial methodology for allocating and trading HFC allowances for 2022 and 2023, and creates a robust, agile, and innovative compliance and enforcement system.

Phasedown Schedule

The following illustrates the HFC production and consumption phasedown schedule as outlined in the AIM Act.

Johnson Controls Electronic Temperature Control

Single stage, SPDT, 120/240 VAC used to control a wide variety of single-stage refrigeration or HVAC equipment.

- Temperature range: -40°F to 212°F
