

STACK RELAYS

Honeywell

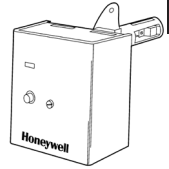

Remanufactured Stack Relays

FEATURES:

- Remanufactured with 100% pure, solid silver pyrostat contacts for longer on-the-job service life.
- Backed by 2-year warranty.

BENEFITS:

- All new stack relays contain brass contacts covered with a slight silver plating. It wears off as the contacts open and close, exposing the brass surface over time. The exposed surface is a poor conductor and may result in relay failure and nuisance callbacks.

INTERMITTENT IGNITION

Ref#	Description	Reman#
RA816A	- - -	R4R
RA816A-11	11-1/4" insertion	R4-5R
RA816A,D	4" insertion	R4-6R

INTERRUPTED IGNITION

RA817A	- - -	R5R
RA817A-240	240v input	R5-2R
RA817A-11	11-1/4" insertion	R5-5R
RA817C	Timed ignition	R5-6R

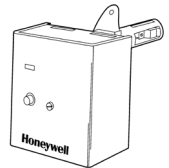

Honeywell

Remanufactured Combination Stack Relays

FEATURES:

- Combines stack relay and switching relay.
- Two-wire, 24v thermostat circuit.

Ref#	Ignition	Reman#
R848A	Intermittent	R6R

Honeywell

Remanufactured 3-Wire Stack Relays

INTERMITTENT IGNITION

Series 10, equipped with flue gas seal.

Ref#	Description	Reman#
RA116A-LI	Long insertion	R20-3R

INTERRUPTED IGNITION

RA116A	120V, 75 sec. safety	R20R
RA117A	120V, 75 sec. safety	R22R
RA117A-240	240V input	R22-2R
RA117A-LI	Long insertion	R22-3R

NOTE: Remanufactured products available only on exchange for similar defective units.
