

Nest Temperature Sensor

The right temperature. Right where you want it.

Meet the Nest Temperature Sensor.

Most homes aren't the same temperature in every room. With the Nest Temperature Sensor, you can let your Nest thermostat know which room should be a certain temperature at a certain time of day. Just place it on a wall or shelf and get the right temperature, right where you want it.

Features

Helps make sure a certain room is the exact temperature you want it to be.

Place it on a wall or shelf. Then forget it's even there.

Put temperature sensors in different rooms. And choose which room to prioritize when.

SPECS

Color

- White

Diameter

- 1.9 in (50 mm)

Height

- 0.8 in (22.5 mm)

Mass

- 1.6 oz (45 g)

Battery

- One CR2 3V lithium battery (included)
- Up to 2-year battery life

Features

- Senses temperature
- Communicates temperature to compatible Nest thermostats

Sensors

- Temperature sensor

Wireless

- Bluetooth Low Energy

Range

- Up to 50 feet away from your Nest thermostat. Range can vary depending on your home's construction, wireless interference and other factors.

Compatibility

- Requires an installed Nest Learning Thermostat (3rd generation) or Nest Thermostat E. Identify your thermostat at nest.com/whichthermostat
- Up to 6 Nest Temperature Sensors supported per connected thermostat and up to 18 Nest Temperature Sensors supported per home.

Operating temperature

- 32° to 104°F (0° to 40°C)
- Indoor use only

Certification

- UL 60730-2-9, Particular Requirements for Temperature Sensing Controls

Green

- RoHS compliant
- REACH compliant
- CA Proposition 65
- Recyclable packaging
- Learn more at nest.com/responsibility

Warranty

- 1 year

IN THE BOX

- Nest Temperature Sensor

- Mounting screw

- Installation card
-
