Midwest Ducts (hereinafter "Company" warrants and guarantees that the materials are of good quality. For a period of one year after delivery by Company, Company agrees to repair or replace at its own cost all of Company's material which proves to be defective.

Terms and Conditions

1. This warranty/guarantee extends only to the owner of the initial installation and is not transferable or assignable without Company's prior written consent.
2. The foregoing warranty/guarantee is in lieu of and excludes all other warranties not expressly set forth herein, whether express or implied, by operation of law or otherwise, including but not limited to any implied warranties of merchantability or fitness.
3. The Company's obligation in this warranty/guarantee is limited to repair or replacement of Company's material, and, in no event shall the Company be liable for consequential, indirect, or incidental damages or for any amount in excess of materials, whether the claim is for breach of warranty or negligence.
4. Acceptance by customer of a bond or any other guarantee for material shall relieve Company from its liability under this warranty/ guarantee.
5. Company shall not be liable for damage due to any of the following conditions or causes before or after installation: failure or defects in related materials supplied by others; defective installation; structural changes due to shifting cracking or collapse of building or any portion thereof; settlement, distortion or warping of building failure of contiguous or supporting work provided by others; acts of God or unusual phenomena; and failure to report any alleged defect to company in writing within ten (10) days from discovery.

SNAP AND SEAL PIPE IN ONE EASY STEP

The T1™ One-Step

Snap & Seal Pipe System.

Introducing a revolutionary way to seal the longitudinal joint on a pipe and, at the same time, provide a tight, long lasting seal that eliminates the cumbersome and time-consuming application of UL 181 foil tape. Through a proprietary manufacturing process, we have integrated the unique properties of 3M brand VHB™ Tape mounted in the snap-lock seam to produce a permanent seal that won't delaminate or separate like foil tape. And, because your installers just remove the liner and snap, you'll eliminate the labor involved in applying foil tape.
