

## CONSTRUCTION

- Boosts line pressure up to 50 PSI, for power when you need it
- Rugged cast iron pump housing and motor with easy priming outlet
- Corrosion-resistant storage case for easy transfer to and from job site
- 3/4 in. brass hose adapters connect to standard garden hose
- Includes suction strainer to filter debris, and remove water down to 1/8 in of surface
- 20 ft. SJTW power cord

## APPLICATIONS

- Drainage, dewatering flooded basements, emptying stock tanks, draining water heaters and charging polyglycol radiant heating lines

## MOTOR

- 1/2 HP powerful universal motor

## SWITCH

- Manual operation

# 1/2 HP CAST IRON PORTABLE TRANSFER PUMP WITH STORAGE CASE

MAX FLOW 610 GPH @ 40 PSI

**1/2 HP**

# DIMENSIONAL DATA (INCHES)

## PUMP SNAPSHOT

			Dimensions (in.)							
HP	Construction	Switch Type	Length	Width	Height	Weight	Volts	Footprint	Power Cord	
1/2	Cast Iron	N/A	9.520	6.940	8.846	25 lbs	120	N/A	20 ft.	
Impeller	Intake	Discharge	Submersible	UPC 0-40066						
Centrifugal	3/4 in.	3/4 in.	Yes	216427						

## TYPICAL APPLICATION

Water removal, draining hot water heaters, flushing water lines, charging polyglycol radiant heating lines

## 50TK PERFORMANCE

Discharge Pressure Per Square Inch	Suction Lift Gallons Per Hour - in feet			
	0 ft.	5 ft.	10 ft.	15 ft.
5	1450	1420	1350	1270
10	1370	1300	1230	1160
