

LED LENSER® i7R

The LED Lenser i7R is a high-strength rechargeable torch for industrial applications. Tough and compact it will fit the hand, pocket or case of any engineer and it even features a Speed Focus with Fast Lock. For more precision it uses Advanced Focus System optics to keep the light consistent from flood to spot beam with an impressive range up to 180 metres. There are two light settings: Power (220 lumen) or Low Power 925 lumen), providing everything from high-intensity illumination down to a softer light useful for reading maps or viewing diagrams. An impressive run time of 4 hours (Power) and up to 30 hours (Low Power) ensures the i7R is a dependable light instrument in the most demanding environments. The i7R is supplied with a smart charging base, enabling industrial users to re-charge batteries from their worktops with energy-saving efficiency. The charging base also incorporates a charging status light to let you know the charging status.

As a leading international brand of hand-held torches and head lamps, LED Lenser is renowned for superior German engineering, outstanding performance, and state-of-the art technologies, such as the patented Advanced Focus System and Smart Light Technology. Constantly driving innovation to provide class-leading lighting instruments, LED Lenser is the brand of choice for professional tradesmen, emergency services personnel, search & rescue teams and serious outdoor enthusiasts. LED Lenser hand torches and head lamps deliver breath-taking, bright homogenous white light, that turns night into day and simply has to be seen to be believed. Using only the finest materials, such as energy-efficient CREE LED light chips, aircraft-grade aluminium and gold-plated contacts, they are renowned for quality and have a reputation for reliability that is second to none.

- Compact rechargeable hand torch for everyday professional use
- CREE Power LED Light Chip
- State-of-the-art, reliable German engineering
- Advanced Focus System (AFS). Patented reflector and lens combination for intense spot (distance) or flawless flood (near) illumination
- Speed Focus® with Fast Lock
- Dynamic Switch
- Power and Low Power light modes
- Charging base with charging indicator light
- USB connection
- Water-resistant (IPX4)
- Robust metal housing
- Detachable roll protection ring included

Technical Information

	Power	Low Power
Lumens	220	25
Beam Distance (meters)	180	60
Run Time (hours)	4	30
Size:	130x36.5mm Ø	
Weight:	175g	
Batteries:	4 x NiMH	

Supplied with: USB Cable, Charging Base (micro USB port), Roll Protection Ring, Pouch, Wrist-Strap, Rechargeable battery set (4 x AAA NiMH)

Code	Description	Unit Colour	Packaging	Barcode
5507R	i7R	Black	Box	4029113550703
RRP ex.vat £49.96 / incl.vat £59.95				

* Also compatible with AAA Alkaline batteries (not supplied)
