NANO-13X-1

- Ultra Low Profile : 1-1/4"
- LED Diagnostics
- Low Voltage Safety Switch
- Thermal Overload Protection
- 13' Lift
- 32' Horizontal Run (at 3' Lift)
- Rated for Mini-Split Systems up to 24000 BTU.

Hartell's Mini-Split Condensate pump is designed for installations where space is limited. The ultra slim profile makes it ideal for air conditioning systems rated up to 30000 BTU (24000 BTU in tropical climates).

The reservoir/sensor fits inside of the air conditioning unit, while the pump can be mounted in a variety of locations unobtrusive to indoor living space.

The Mini-Split is available in 115 V or 230 V and comes complete with low voltage alarm contacts.

The Hartell Mini-Split pump is suitable for air conditioning units with a cooling capacity to 30000 BTU's (24000 BTU's in tropical climates).

To ensure the best performance from this product the sensor and pump should be cleaned and maintained at regular intervals.
