ECE-A-SW 3VX4X2 ODF 60"

PART NUMBER:

040318-01

TYPE:

ECE

INLET CONNECTION:

3/8" ODF

OUTLET CONNECTION:

1/2" ODF

APPLICATION:

All Purpose

NOMINAL CAPACITY (TON):

A

STRAINER TYPE:

100 Mesh Insert

VALVE OPTION:

None

EQUALIZER METHOD:

Externally Equalized

REFRIGERANT TYPE:

R-404A

THERMOSTATIC CHARGE:

W

EVAPORATOR EQUALIZER SIZE (INCH):

1/4" ODF

Print Product Overview

The Parker C-EC-SC Series balance ported thermostatic expansion valves have a brass bar stock body with flare or sweat connections, adjustable superheat, long lasting replaceable power element and accessible internal parts. Each valve is factory tested to ensure positive leak-free performance. The balance port design provides perfect pin and port alignment and prevents pressure drop across the valve from influencing valve operation.

Also available is the Parker C Series Interchangeable valve. These C Valves are supplied in two components, the thermostatic element and the valve body. The interchangeable nature of this part of the C family makes it ideal for reducing inventory, while increasing valve options.

Markets:

- Air Conditioning
- Refrigeration – Food Retail
- Transportation
- Industrial – Food Storage units

Features/Benefits:

- Balance port design provides perfect pin and port alignment and prevents pressure drop across the valve from influencing valve operation
- Thermostatic charges available to match system conditions
- Available with external equalizer and internal equalizer
- Design working pressure of 450 psi (31 bar)

Applications:

- Systems with widely varying operating conditions
- Capacity ranges from 1/8 to 8 ton R-22
- Supermarket cases and rack systems, Food and Beverage units
- Air Conditioning – Residential, Commercial, Chillers
- Transportation – Units on Truck/Trailer, Bus and Vans
