

# REPLACEMENT PARTS KITS

New “K” Replacement Relay and Overload Kits has been established for the AE<sup>2</sup> compressors. The kits are designed to simplify servicing of compressor relays and overloads on refrigeration and air conditioning equipment. Genuine Tecumseh electrical components are included, along with the hardware (leads, terminal adapters and mounting screws in a sealed plastic bag) needed to make installation quick and easy.

**ELECTRICAL COMPONENTS**

Use only new electrical components specific for that compressor model.
