CE-A-JW 3EX4X2 SAE 60"

**PART NUMBER:**

040282-01

**TYPE:**

CE

**INLET CONNECTION:**

3/8" SAE

**OUTLET CONNECTION:**

1/2" SAE

**APPLICATION:**

All Purpose

**NOMINAL CAPACITY (TON):**

A

**STRAINER TYPE:**

100 Mesh Removable

**VALVE OPTION:**

None

**EQUALIZER METHOD:**

Externally Equalized

**REFRIGERANT TYPE:**

R-134a

**THERMOSTATIC CHARGE:**

W

**EVAPORATOR EQUALIZER SIZE (INCH):**

1/4" SAE

[Reset Attributes](#)**WHERE TO BUY****PRODUCT OVERVIEW**[Print Product Overview](#)

The Parker C-EC-SC Series balance ported thermostatic expansion valves have a brass bar stock body with flare or sweat connections, adjustable superheat, long lasting replaceable power element and accessible internal parts. Each valve is factory tested to ensure positive leak-free performance. The balance port design provides perfect pin and port alignment and prevents pressure drop across the valve from influencing valve operation.

Also available is the Parker C Series Interchangeable valve. These C Valves are supplied in two components, the thermostatic element and the valve body. The interchangeable nature of this part of the C family makes it ideal for reducing inventory, while increasing valve options.

**Markets:**

- Air Conditioning
- Refrigeration – Food Retail
- Transportation
- Industrial – Food Storage units

**Features/Benefits:**

- Balance port design provides perfect pin and port alignment and prevents pressure drop across the valve from influencing valve operation
- Thermostatic charges available to match system conditions
- Available with external equalizer and internal equalizer
- Design working pressure of 450 psi (31 bar)

Applications:

- Systems with widely varying operating conditions
- Capacity ranges from 1/8 to 8 ton R-22
- Supermarket cases and rack systems, Food and Beverage units
- Air Conditioning – Residential, Commercial, Chillers
- Transportation – Units on Truck/Trailer, Bus and Vans
