Cooper-Atkins Corporation

A customer-centric technology leader in monitoring solutions for the global Foodservice, Healthcare and Industrial markets.

Cooper-Atkins has built a reputation as a manufacturer and provider of quality temperature, time and humidity instruments. The inventor of the first bi-metal oven thermometer, David G. Cooper, founded The Cooper Thermometer Company in 1885. For over 128 years, Cooper-Atkins has been a leading manufacturer of indoor environment and innovative food safety solutions. We have a global reach and are a trusted resource for high-quality products and expert advice. The company continues to meet the needs of its customers by remaining focused on the education and promotion of important industry issues and by providing the highest level of service and customer satisfaction!

"We will continue to provide our dedicated customers with affordable solutions for every temperature measurement challenge - from bi-metal pocket tests to hand-held thermocouple units to our high-tech wireless temperature monitoring systems. When industrial professionals are faced with temperature challenges they will continue to look to Cooper-Atkins to provide solutions tailored to the needs of their business." - Carol P. Wallace

Carol P. Wallace has been the President and CEO of Cooper-Atkins Corporation since 1994 and is recognized by the WBENC for leading a successful and thriving woman-owned corporation. The WBENC is the largest third-party certifier of businesses owned, controlled, and operated by women in the U.S.

Blue2™ Bluetooth Temperature Transmission

The 92010-K Kit is made up of the 20100-K Blue2 Instrument and the 50337-K DuraNeedle Direct Connect Probe. The Blue2 Instrument transmits temperatures wirelessly to your mobile device via Bluetooth Low Energy. The Instrument can utilize any interchangeable Type-K temperature probe making it versatile for insertion, air or surface temperature measurement. The data obtained can be integrated into existing third party applications.

92010-K Kit Includes:

- 20100-K Blue2 Instrument
- 50337-K DuraNeedle Direct Connect Probe

Specifications
#20100-K Blue2 Instrument
Temperature Range: -40° to 999°F (-40° to 537°C)
Ambient Operating Range: 32° to 122°F (0° to 50°C)
Resolution: 0.1°
Accuracy: ±0.5°F with ambient temperatures between 68° to 86°F, add ±0.1°F per degree outside of this ambient range
RF Range: 100 feet, line-of-sight
Bluetooth Low Energy
Power: Replaceable 3V Lithium cell battery (CR123A) (Included)
Battery Life: 750 hours
ABS plastic housing with antimicrobial additive
IPX7 waterproof rated
Traceable to NIST standards
5-year Warranty
<i>Note: EMC Compliance: The Blue2 instrument may record temperature measurements beyond the stated accuracy when exposed to radio frequency disturbances between 250Mhz and 1000Mhz with a field strength in excess of 3.0V/m. This deviation is temporary and the Blue2 will recover when the disturbance is removed.</i>

#50337-K DuraNeedle Probe
Temperature Range: -100° to 500°F (-73° to 260°C)
Accuracy: ±1°F
Response Time: 1 second in liquid
Probe Length: 4" (102 mm)
1-year Warranty

NotifEye™ Cloud-based Wireless Monitoring

The NotifEye™ cloud-based temperature monitoring and notification system increases your operating efficiencies and monitors indoor air quality. It is a low-cost wireless solution that is self-installable and ready to use out-of-the-box. The system has a wireless range of 250-300 ft and offers unlimited sensor data storage. Data is accessible from anywhere via the internet.

View the NotifEye™ Online System and Live Data!

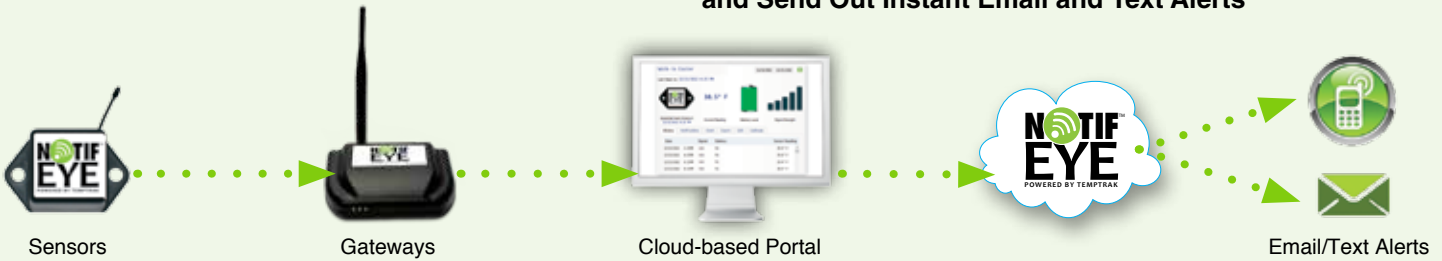

Log Into: www.notifeyewireless.com

User Name: demo / Password: demo2013

How It Works

Wireless Sensors Send Data via Gateways to the NotifEye™ System and Send Out Instant Email and Text Alerts

NotifEye History Screenshot

The NotifEye system allows users to choose a specific date range and have the sensor data within that range generated into a graph. The graphs are printable via the on-screen icon. *(Shown on left)*

NotifEye sensor data can also be exported for selected date ranges. A .csv file will be downloaded to the users default download directory and can be opened in any spreadsheet editing program like Microsoft Excel.

SENSOR FEATURES:

- Basic Sensor Configurations (Name Sensor, Set Heartbeat, Select Unit of Measurement)
- Advanced Sensor Configurations (Recovery Attempts, Inactivity Alerts, Sub Heartbeat Assessments)
- Sensor Configuration by Group
- Sensor Grouping by Gateway, Type or Status
- Unlimited Number of Networks, Sensors, Gateways and Use Supported
- Sensor Mapping Tool (Visual Placement)
- Data Reports and Sensor History Storage
- Visual Charts and Exports

ALERT FEATURES:

- On-screen Alerts and Notifications (Single User or Multiple Recipients)
- Notifications via Email and SMS Text
- Permission-based Access Control and Reporting
- List of Recent Alerts for Individual Sensors

15100 Temperature Sensor - 3 ft. lead (0.91 m)
15100-10 Temperature Sensor - 10 ft. lead (3.05 m)
15100-30 Temperature Sensor - 30 ft. lead (9.14 m)
Temperature Range: -40° to 257°F (-40° to 125°C)
Accuracy: ±1.8°F (±1°C)

15120 Humidity Sensor
Relative Humidity Range: 0-100% RH
Accuracy: ±2% under normal conditions (50-90% RH)

15130 Contact Sensor
Monitor open/close contact
Magnet operation gap up to 0.75"
SPST, gold under-plating contact with Deactivated Rhodium outer-plating

General Sensor Specifications
Ambient Operating Range: 20° to 140°F (-7° to 60°C)
Communication: RF 900 MHz, Antenna: 4" high-gain whip antenna
Sensor Range: 250-300 ft non-line-of-sight (actual range may vary depending on environment)
Power: Replaceable 3.0 V Lithium Ion coin cell battery
Battery Life: 2-3 years at 2-hour heartbeat (battery life determined by sensor reporting frequency and other variables)
1-year warranty

15502 Repeater
Extends sensor range by up to 50%
Supports up to 100 sensors
Power: AC plug

15100 Temperature Sensor
*Available in multiple probe wire lengths

15120 Humidity Sensor

15130 Contact Sensor

15502 Repeater

NotifEye Kit Options:

Ethernet Gateway Kit 15901

Includes:

- (4) Temperature Sensors (15100)
- (4) 2032 Coin Cell Batteries
- (4) Loop & Lock Tape Strips
- (8) Mounting Screws
- (1) Ethernet Gateway (15501)
- (1) AC Power Adapter
- (1) Cat 5 Ethernet Cable
- 2-Years Web Hosting*

Ethernet Gateway Kit 15902

Includes:

- (2) Temperature Sensors (15100)
- (2) 2032 Coin Cell Batteries
- (2) Loop & Lock Tape Strips
- (4) Mounting Screws
- (1) Ethernet Gateway (15501)
- (1) AC Power Adapter
- (1) Cat 5 Ethernet Cable
- 2-Years Web Hosting*

USB Gateway Kit 15900

Includes:

- (4) Temperature Sensors (15100)
- (4) 2032 Coin Cell Batteries
- (4) Loop & Lock Tape Strips
- (8) Mounting Screws
- (1) USB Gateway (15500)
- 2-Years Web Hosting*

*Renewal fee applies each additional year thereafter

15501 Ethernet Gateway Minimum System Requirements

- Internet Access via Ethernet Port
- PC/MAC Compatible

15500 USB Gateway Minimum System Requirements

- An Available USB Port
 - Windows 8, 7 and Vista
 - 10 MB Free Disk Space
 - ASP.NET 3.5
 - Computer Must be Left ON for Data Transfer to Occur
- Not Windows XP or MAC Compatible**

TempTrak™ Wireless Monitoring Solution

Maintenance/Facilities

Manufacturing

Casinos/Hotels/Resorts

Food Processing

Factory/Refinery

The Wireless Monitoring Solution for Industry Professionals

All Equipment. All Locations. One Platform.

Eliminate paper-driven logs for manual temperature management by converting to our TempTrak™ system. It collects and shares temperature data across multiple locations in the same town or across country. This system allows the monitoring of an unlimited number of points in an unlimited number of locations - all from a single software platform.

HOW IT WORKS

The transmitters wirelessly send data to the TempTrak software which collects and records data 24/7. In the event the server is unavailable, data is temporarily stored/secured either in a buffer at the receiver (900 MHz) or onboard the transmitter itself (Wi-Fi). TempTrak hardware can co-exist with other wireless communications operating in the same, or nearby frequencies (900 MHz), or can utilize the facility's existing Wi-Fi network.

- Battery-powered transmitters - no hard-wiring required
- Easily mounted in any location
- Monitors against user-defined parameters
- Provides alerts via pager, computer pop-up and email
- Date and time-stamped - cannot be altered
- Temperature data can be displayed in either °F or °C
- Add notes to transmitter readings

TEMPTRAK ACCESS WHEREVER YOU GO!

Both Wi-Fi and 900 MHz wireless transmitters can communicate within the same installation.

BACNET COMPATIBILITY

TempTrak information can be transferred to automation and control systems via an optional BACnet Gateway interface software module. The BACnet Gateway interface allows any Automation System, employing BACnet IP, to access TempTrak's sensory information. With the BACnet Gateway, automation system users can monitor real-time status of equipment that contains critical assets with familiar applications and tools, effectively decreasing losses while increasing maintenance quality. Utilizing TempTrak's wireless sensors and the BACnet Gateway, adding monitor points is quick and cost effective for an automation system owner. **The BACnet Gateway option is available for TempTrak versions 4.5 and higher.**

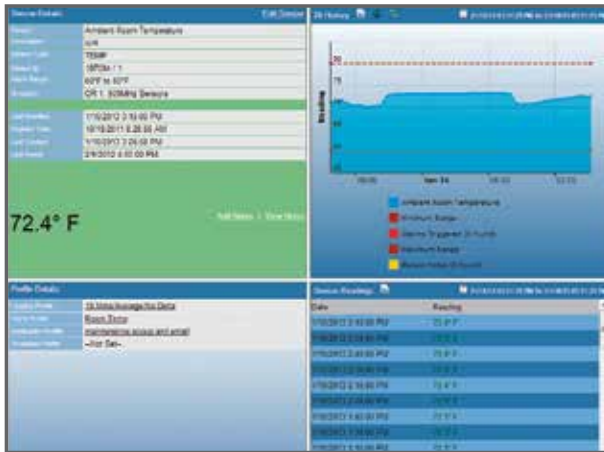

Watch the Video!

REPORTING

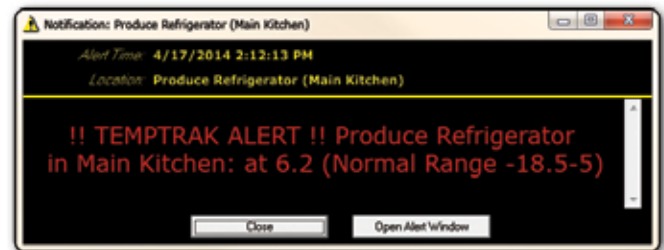

TempTrak software can create reports for any building or location from information collected via the system. Customized reports provide historical data, document corrective actions and identify issues before breakdown and spoilage occur.

ALERT NOTIFICATIONS

Alerts may be configured by time of day and day of week. All corrective actions are tracked by time, user and action. An operator can acknowledge or clear an alarm and must document the corrective action taken to resolve the issue. Both the time stamp and identity of the person acknowledging or clearing the alarm is recorded and stored and the event information is stored in the database. When a monitoring point that has exceeded a preset range, it sends an alert notification via a variety of methods including:

- computer screen pop-ups
- emails
- pagers (digital and SNPP)
- cellular devices (via email)
- text messages (via email and SMS)
- interactive voice response
- contact switches (turn lights or sirens on/off and can connect to security systems to transfer alerts)
- scrolling message boards

ALERT TYPES

⚠ Out of Range

Monitoring point has exceeded a preset range for a preset time period.

🔋 Low Battery

Triggered when a battery is becoming low (approximately 2 weeks before battery failure).

📶 Missed Communication

Monitoring point has exceeded a preset range for a preset time period.

EZLink™

View, Acknowledge and Clear TempTrak Alarms 24/7!

Wherever you go, EZLink™ allows you to monitor your wireless system 24/7. View temperature sensor readings from your mobile device anywhere, anytime!

Features:

- View groups
- View sensors
- View 24-hour sensor reading history

HACCP Manager™ System

The HACCP Manager™ Kit records, stores, and analyzes temperature data and checklist data, eliminating the need for manual data collection. The HACCP Manager's intuitive programming requires minimal training and increases productivity. Both the firmware and software are automatically updated via the web to ensure your system is always current. Incorporating our new HACCP Manager™ system into your preventative maintenance program will not only save you time and money, but will increase consumer confidence and ultimately improve the overall customer experience.

93710 HACCP Manager™ Solo Kit

- 37100 Handheld
- 50209-K MicroNeedle Probe
- 9382 Battery Charger
- 9383 USB Cable
- 9384 Software CD-ROM
(Not pictured)

HANDHELD DISPLAYS

HACCP Manager™

37100 Specifications

Temperature Range: -99.9° to 999.9°F (-73.2° to 537.7°C)
Accuracy: ±1°F (±0.5°C)
Resolution: 0.1°
Stores up to 3,000 temperatures and 300 menu items
Stores 1500 checklist records (150 questions)
Water resistant
ABS Plastic with protective rubber boot
Accepts all Type K thermocouple probes
Traceable to NIST standards
Rechargeable lithium ion battery
5-year warranty

Works as a standalone system with software residing on a local PC.
Not Mac Compatible.

The Must-Have Addition to Your HACCP Program!

HACCP Manager with 50012-K Angled Surface Probe (see page 10)

BENEFITS FOR MANAGEMENT

Saves Time: Shorter time to program and complete temperature logs - up to 50% time savings reported compared to manual logs!

Ensures Compliance: Helps to ensure temperature logs are done accurately and in the correct time period; substantial reduction in fraudulent dry-logging.

Guarantees Proper Documentation: Records include Employee Names, Locations, Product Descriptions, Temperature Tolerances, Actual Temperatures, Corrective Actions, Date and Time Stamps.

Reduces Costs: “going green” - conserves paper usage which adds up to significant money savings per year.

Increases Efficiency: Unlike paper logs, the HACCP Manager software allows you to organize data for analysis and custom reporting.

Enhances Quality of Operations: Allows you to electronically document other Yes/No requirements such as: inventory, bathroom checks, sanitation supplies, replenishment and closing tasks.

Provides Versatility: Cooper-Atkins offers more than 150 different Type K probe options for insertion as well as solid simulators (mimics core food temperatures in Walk-ins, Reach-ins and Grab-n-Go's); surface probes for griddle temperatures; dishwasher probes for rinse sanitation records; and Oven/Air probes etc.

BENEFITS FOR STAFF

Reduces Training Time: Easy-to-use, intuitive programming offers simplicity, allowing any level of employee to perform these important tasks.

Improves Morale and Attitude: Feedback from testing sites indicates that personnel enjoy completing the temperature logs because they are using advanced technology to complete their work.

Increases Accountability: The names of personnel completing logs are stored; For accountability, use the log analysis tools and reporting as positive reinforcement during employee evaluations.

Ensures Proper Action: When a temperature exceeds its preset limits, the handheld acknowledges it and the employee must choose a corrective action in order to move forward to the next item. Educating the employee on what do do for any given situation lessens confusion.

The planning and training involved in a paper-based HACCP food safety program is laborious, costly and can be a burden to your business.

The HACCP Manager™ system is the perfect solution!

- Replaces manual data collecting
- Saves the user time and money
- Decreases training times
- Increases employee accountability
- Custom menus and checklist storage
- Software and firmware updates via the web
- Real-time, color-coded alerts
- Identifies corrective actions for failed results
- Generates automated reports
- Exception based filtering
- Export reports to PDF and Excel format
- Ensures food is safe and improves health inspection scores

HACCP Manager Checklist Screen

The Handheld is a portable data-collecting instrument designed to simplify the gathering of temperatures, manage standard checklist processes and document corrective actions.

Thermistor Instruments & Provers

SH66A-E 3-Zone Temperature Instrument

For applications when multiple temperature measurements are needed, this is the instrument to use. Simultaneously measure suction and liquid line temperatures, as well as temperatures across condensing coils, evaporator coils and ambient temperatures. View temperature differential between zones 1 and 2 and review min/max temperatures from all three zones. Features include: a backlit display for dark environments; a sealed keypad which protects the instrument from spills and dust; and a battery eliminator jack.

SH66A-E:

- 1075 General Purpose Puncture Probe
- 2010 Air Probe
- 4011 Pipe Strap Probe

*SH66A-E-032:

- 1075 General Purpose Puncture Probe
- 2010 Air Probe
- 4011 Pipe Strap Probe
- Certificate of calibration traceable to NIST standards

SRH77A-E 3-Zone Temperature/Humidity Instrument

When temperature and relative humidity measurements are critical, the SRH77A-E is the expert's choice. View temperature differential, %RH and wet-bulb. You will find this to be an accurate and fast service tool. Features include: a backlit display for dark environments; sealed keypad which protects the instrument from spills and dust; and a battery eliminator jack. The bright blue, durable carrying case makes this tool easy to find when on location or in the back of a service truck.

SRH77A-E:

- 1075 General Purpose Puncture Probe
- 4011 Pipe Strap Probe
- 5028 Slim Humidity Probe

*SRH77A-E-032:

- 1075 General Purpose Puncture Probe
- 4011 Pipe Strap Probe
- 5028 Slim Humidity Probe
- Certificate of calibration traceable to NIST standards

TravAlert™ is most commonly used for monitoring storage temperatures during transportation and provides highly accurate data for use in the foodservice and industrial markets. It can also be used to monitor and record temperatures of stationary refrigeration units or warm holding cabinets. The self-powered Data Logger is a time and temperature, PC interfacing device that can record up to 2,048 temperatures (in intervals from 1 minute to 4 hours) and is splash, dirt and impact resistant.

TravAlert™ Data Logger Kit

- 9387 Data Logger (5)
- 9364 i-Button Reader Cable (2)
- 9365 USB Adapter (2)
- 9386 Software CD (2)
- 9378 Disposable 3" x 4" Pouches (100) *(not shown)*

SPECIFICATIONS
Temperature Range: -40° to 185°F (-40° to 85°C)
Accuracy: ±2°F (±1°C) from -22° to 176°F (-30° to 70°C)
Resolution: 1°F (0.5°C) increments
Recording Intervals: 1- 255 user-programmable intervals up to 2,048 readings
Tag: ABS plastic tag with stainless steel button
Water resistant
Re-programmable for multiple uses
Battery: Lithium
Warranty: 1 year
FEATURES
Unique user-defined session identity
Go/No-Go Icon for immediate visual (based on user-defined parameters)
All readings for session shown in graph and tabular format
Printable to PDF at destination
Quick session summary display
SYSTEM REQUIREMENTS
Windows XP, Vista, Windows 7
Universal Serial Bus (USB) port
512 MB of memory
500 MB of hard disk space
Compact Disk (CD) drive

GL100

Water-resistant, Mini Data Loggers

- Data logger tag monitors both time and temperature
- Temperature Range: -40° to 185°F (-40° to 85°C)
 - Temperature Accuracy: ±2°F from -4° to 158°F (±1°C from -20° to 70°C)
 - Clock Accuracy: ±2 minutes per month
 - PC Requirements: Windows 95 or higher (minimum of 10MB of hard-drive space) and a CD-Rom drive
 - 1-year warranty

Not compatible with Macintosh computers.

GL100

- Two (2) mini data loggers
- Two (2) mounts
- Reader and software

Dual Input Thermocouple Kits

The TD2000 is a dual-input, Type K thermocouple instrument designed to monitor two zones simultaneously. The TD2000 is ideal for monitoring in/out flow lines of cooling and heating units and displays Max temperature and Delta-T calculations. It includes a protective rubber boot and has a temperature range up to 2000°F. The TD2000-01 Kit includes two Bead Tip probes and a Needle probe (for internal measurement of liquids or solids). The TD2000-02 Kit includes two 54011-K Pipe Strap Surface probes and a soft carrying pouch.

EconoTemp™ Thermocouple Instruments

The **EconoTemp™** series employs state-of-the-art technology in economy thermocouple instruments. Designed with a powerful microprocessor and a unique memory which stores calibration settings, it will never need recalibration. A rubber boot protects the ABS plastic housing delivering impact ratings not found in other economy models. Supplied with a 9368 Wall-mount bracket and lanyard.

AquaTuff™ Thermocouple Instruments

AquaTuff™ Wrap&Stow™ Thermocouple Instruments have a unique memory chip that stores calibration settings. They are highly accurate, NIST traceable and most importantly, as the AquaTuff™ name implies, extremely durable and IPX7 waterproof rated for even greater reliability in harsh environments. Integral probe and cable storage enclosure designs are available where the probe is factory calibrated to the instrument. The AquaTuff™ 35100-K or 35200-K allow for maximum versatility since the instrument can be used with any Type K Thermocouple probes.

AquaTuff™ 351 Series

AquaTuff™ Series Wrap&Stow™ Probes

DuraNeedle Probes are best used to measure insertion and immersion temperatures. They are quick and durable for dependable performance, and are included with the 35132 and 35232. To order replacement DuraNeedle Probes, use model number 55032.

MicroNeedle Probes are designed to provide the greatest response times with minimal impact on the product, and are included with the 35140 and 35240 and 35340. To order replacement MicroNeedle Probes, use model number 55040.

Surface Probes are designed for use on any flat surface. Probe self-adjusts to the surface, giving superior contact and is included with the 35135 and 35235. To order replacement Surface Probes, use model number 55035.

IPX7 Waterproof

All the AquaTuff™ instruments are IPX7 waterproof rated and durable for harsh environments.

An IPX7 level reading means the instrument can be submerged in 1 meter of water for 30 minutes without water damage.

Digital Panel Thermometers

Cooper-Atkins' panel meters allow you to obtain accurate interior temperature readings remotely from outside the cabinet. They reduce the frequency of opening your cooler/freezer door and keep the cold air in and the hot air out. All are designed for retro-fit applications.

	SP160-0 SP160-01	SP120	PM120	PM180

DM120/DM450 Series

Front flange for flush mounting or back flange for surface mounting to cabinet and/or enclosure. The removable 2" (51 mm) diameter polycarbonate lens makes battery replacement easy.

DM120 Front Flange Back Connect Panel Thermometer

DM450 Front Flange Back Connect Panel Thermometer

PMRH120 Mini Remote-Reading Thermometer/Hygrometer

- Min/Max feature
- 9302 Mounting flange available

DTT361 Cooking Thermo/Timer

- Wall-mount bracket with magnet
- Temperature/Time/Alarm

Vapor Tension Panel Thermometers

Used in many HVAC/R applications, these units are the perfect choice for use in walk-in refrigerators, tanks, refrigerated display cases, holding and specialty cabinets, dairy cases, freezers, floral displays and much more. They are able to obtain interior temperature readings remotely from outside of the cabinet and can be retro-fitted.

- Nickel/tin-plated bulb and capillary
- Polycarbonate lens/bezel
- Stainless steel cases

AFL Digital Pocket Test Thermometers

A digital pocket-test thermometer that is “**Accurate for Life**” and does **NOT** require any field adjustment. Eliminating field adjustment removes the risk of introducing inaccuracy into the instrument. Cooper-Atkins brings this industry leading advancement with the guarantee that our **Digital Pocket Tests** are always accurate. Look for the logo  on Cooper-Atkins products and you’ll know they are **Accurate for Life...GUARANTEED!!**

Cooper-Atkins offers a wide range of fast-response, Accurate for Life, Digital Pocket Tests with 0.1° resolution. Thermistor sensors are located in the probe tip for quick response time and accurate readings.

TTM41 & TTM41-10
CoolitRite™ Cooling Validator
 Validator with 15” stem (TTM41) or 10” stem (TTM41-10) tracks elapsed time while it monitors the temperature of the food being cooled.

- Adjustable vessel clip
- Water-resistant

Antimicrobial

The antimicrobial additive in the ABS plastic housing inhibits the growth of bacteria on the unit. It does not protect users or others against bacteria.

IPX7 Waterproof

All the **Accurate for Life Pocket Test** instruments are IPX7 waterproof rated and durable for harsh environments.

An IPX7 level reading means the instrument can be submerged in 1 meter of water for 30 minutes without water damage.

412 Infrared with Laser Sighting & Thermocouple Jack

- LCD display with backlight
- FDA Class II, Single-point laser may be turned on or off
- High/Low alarms
- Measures min, max, average & differential temperatures
- Accepts all Type K Thermocouple probes
- Lock-mode for continuous monitoring up to 60 minutes
- Adjustable emissivity
- Soft carrying case included

462 Slim-Line Infrared Thermometer

- Easy to use. Just aim at the object, press the button, and read the surface temperature.
- LCD display with backlight
 - Single-point laser
 - Auto Shut-off after 7 seconds

470 Mini Infrared Thermometer

- The pocket-sized design is very compact, and includes lanyard to wear around your neck.
- Min/Max/Hold/Lock

480 Dual Temp Infrared & Probe

- For surface and internal temperature readings.
- Auto Shut-off after 7 seconds/Probe after 4 mins

Infrared Thermometers

422 Gun-style Infrared with Laser Sighting

(D:S)
12:1

Emissivity

is a measure of the efficiency in which a surface emits thermal energy. It is defined as the fraction of energy being emitted relative to that emitted by a thermally black surface (a black body). A black body is a material that is a perfect emitter of heat energy and has an emissivity value of 1.

423 Gun-style Infrared with Laser Sighting

Accepts Type K Thermocouple probes

(D:S)
16:1

D:S (Distance to Spot Ratio)

The further away from the object, the larger the surface area measured. Optical resolution is expressed as a ratio of the distance to the resolution spot divided by the diameter of the spot.

Wall Thermometers

Wall Thermometers/Hygrometers allow easy monitoring of temperatures. Specialty HACCP color-zoned dial units were developed for use in critical food-related applications. These thermometers have large numbers and oversized dials for easy viewing.

TC6

Digital Timer/Clock/Stopwatch

- Built-in memory
- Splash proof case
- Wire hang, easel stand, clip-on or magnet-mount
- Power: 1.5V, AAA battery included

FT24

Large Single-Station Digital Timer

- Red light flashes when alarm sounds
- Built-in memory for repeat cycle timing
- Power: (4) 1.5V, C size batteries included

TFS4

Large Multi-Station Digital Timer

- Switchable: Hours/Minutes or Minutes/Seconds
- Built-in Memory
- Power: (4) 1.5V, C size batteries included
- Built-in AC adapter jack

TS100

Digital Timer/Stopwatch

- 99 minute, 59 second counter/timer
- Recall feature
- 18" nylon neck cord
- Power: 1.5V, G13A micro-cell battery included

#9374
AC adapter
for TFS4 (optional)

TM60

Long-Ring 60 Minute Timer

- Non-skid feet for easy, one-handed operation
- Spring-wound mechanism
- Sturdy, Stainless Steel case

TW3

Large Digit Multi-Function Timer

- Recall feature
- Water resistant
- Large LCD: 1.5" x 2.5" (38 mm x 63 mm)
- Power: 1.5V, AAA battery included
- Wire hang, easel stand, belt-clip or magnet-mount
