

Work smarter with the **CoilJet**[®] from SpeedClean[®]

Portable power for the inside and out. The CoilJet from SpeedClean makes quick work of cleaning debris and grime from condenser and evaporator coils. Now deliver professional results in a convenient and rechargeable battery powered solution – no more garden hoses or pump sprays needed.

The CoilJet delivers a powerful spray of water and cleaning chemical from the included tanks to wash even the dirtiest coils, without damaging sensitive fins. And the small portable size lets you clean coils from the front or back of the coil – a proven method for increasing coil cleaning and system efficiency. CoilJet makes cleaning coils quick and easy. Now that's smart.

Additional cleaning solutions

Condenser Needle®:

For the most complete coil cleaning solution consider adding the Condenser Needle from SpeedClean. This powerful tool connects to a standard garden hose and is designed to exclusively clean condenser coils from the inside and out.

Part No: CN-03

FlowJet™:

High flow, continuous cleaning. The FlowJet from SpeedClean with chemical injection, makes quick work of cleaning debris and grime from microchannel and thick condenser and evaporator coils. Now deliver professional results in a compact, portable solution.

Part No: FLOWJET-60

BucketVac®:

New from SpeedClean, the BucketVac turns any standard 5 gallon bucket into a powerful, portable commercial grade wet/dry vacuum. Easily switch between wet and dry, or add extra capacity for a big job by snapping onto a new bucket.

Part No: BV-5
